

St Edward's Science Curriculum Map 2019-20

Year 3

Working Scientifically	Animals Including Humans	Plants	Forces & Magnets	Living Things and Their Habitats	Light	Rocks
<p>Ask relevant questions and use different types of scientific enquiries to answer them. <i>I can ask questions and use different types of scientific enquiries to answer them.</i></p> <p>Set up simple practical enquiries, comparative and fair tests <i>I can set up simple practical enquiries, comparative and fair tests.</i></p> <p>Make systematic and careful observations and, where appropriate, take accurate measurements using standard units, using a range of equipment, including</p>	<p><u>National Curriculum Learning Objectives:</u></p> <p>Identify that humans and some other animals have skeletons and muscles for support, protection and movement. <i>I can explain why humans and some other animals have skeletons and muscles.</i></p> <p>Identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat. <i>I can identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat.</i></p>	<p><u>National Curriculum Learning Objectives:</u></p> <p>Identify and describe the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers. <i>I can explain what different parts of flowering plants do.</i></p> <p>Explore the requirements of plants for life and growth (air, light, water, nutrients from soil, and room to grow), and how they vary from plant to plant. <i>I can explore the requirements of plants for life and growth and how they vary from plant to plant.</i></p> <p>Investigate the way in which water is transported within plants. <i>I can investigate the</i></p>	<p><u>National Curriculum Learning Objectives:</u></p> <p>Compare how things move on different surfaces. <i>I can compare how things move on different surfaces.</i></p> <p>Notice that some forces need contact between two objects but magnetic forces can act at a distance. <i>I can see that some forces need contact between two objects but magnetic forces can act at a distance.</i></p> <p>Compare and group together a variety of everyday materials on the basis of whether or not they are attracted to a magnet, and identify some magnetic materials. <i>I can compare and group some materials on the basis of whether or not</i></p>	<p><u>National Curriculum Learning Objectives:</u></p> <p>Explore and compare the differences between things that are living, dead, and things that have never been alive. <i>I can explain the differences between things that are living, dead and things that have never been alive.</i></p> <p>Identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other <i>I can explain that most living things live in habitats which suit them and depend on each other.</i></p>	<p><u>National Curriculum Learning Objectives:</u></p> <p>Notice that light is reflected from surfaces. <i>I can show that light is reflected from surfaces.</i></p> <p>Recognise that he/she needs light in order to see things and that dark is the absence of light. <i>I can explain that I need light in order to see things and that dark is the absence of light.</i></p> <p>Recognise that light from the sun can be dangerous and that there are ways to protect eyes. <i>I can explain that light from the sun can be dangerous and that there are ways to protect eyes.</i></p> <p>Recognise that shadows are formed when the light from a light source is blocked</p>	<p><u>National Curriculum Learning Objectives:</u></p> <p>Recognise that soils are made from rocks and organic matter. <i>I can explain that soils are made from rocks and organic matter.</i></p> <p>Describe in simple terms how fossils are formed when things that have lived are trapped within rock. <i>I can describe simply how fossils are formed when</i></p>

St Edward's Science Curriculum Map 2019-20

Year 5

thermometers and data loggers.

I can make observations and take measurements using standard units, using a range of equipment, including thermometers and data loggers.

Gather, record, classify and present data in a variety of ways to help with answering questions.

I can gather, record, classify and present data in a variety of ways to help with answering questions.

Record findings using simple scientific language, drawings, labelled diagrams, keys, bar charts, and tables.

I can record findings using simple scientific

way in which matter is transported within plants.

Explore the part that flowers play in the life cycle of flowering plants, including pollination, seed formation and seed dispersal.

I can explore the part that flowers play in the life cycle of flowering plants, including pollination, seed formation and seed dispersal.

they are attracted to a magnet, and identify some magnetic materials.

Observe how magnets attract or repel each other and attract some materials and not others.

I can observe how magnets attract or repel each other and attract some materials and not others.

Describe magnets as having two poles.

I can describe magnets as having two poles.

Predict whether two magnets will attract or repel each other, depending on which poles are facing.

I can predict whether two magnets will attract or repel each other, depending on which poles are facing.

Identify and name a variety of plants and animals in their habitats, including micro-habitats

I can name some plants and animals in their habitats including micro-habitats.

Describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food.

I can explain how animals get their food from plants and other animals using a simple food chain.

by a solid object.

I can show how shadows are formed when the light from a light source is blocked by a solid object.

Find patterns in the way that the size of shadow's change.

I can show that there are patterns in the way that the size of shadow's change.

things that have lived are trapped within rock.

Compare and group together different kinds of rocks on the basis of their appearance and simple physical properties.

I can examine and do practical experiments on various types of rocks in order to group them on the basis of their appearance and simple physical properties

Year 3

language, drawings, labelled diagrams, keys, bar charts, and tables.

Report on findings from enquiries, including oral and written explanations, displays or presentations of results and conclusions

I can report on findings from enquiries, including spoken and written explanations, displays or presentations of results and conclusions.

Use results to draw simple conclusions, make predictions for new values, suggest improvements and raise further questions

I can use results to draw simple conclusions, make predictions for new values, suggest

St Edward's Science Curriculum Map 2019-20

Year 3

*improvements and
 raise further
 questions.*

Identify
 differences,
 similarities or
 changes related to
 simple scientific
 ideas and
 processes

*I can explain
 differences,
 similarities or
 changes related to
 simple scientific
 ideas and
 processes.*

Use
 straightforward
 scientific evidence
 to answer
 questions or to
 support his/her
 findings

*I can use straight
 forward scientific
 evidence to answer
 questions or to
 support my
 findings.*

Subject Leader: Mr Callender-Ferrier
